

ZWECC has achieved a breakthrough in China with the Yangtze River Authority in the identification of planktonic algae in China's waterways. You can read about it in a report written by the Yangtze River Authority (Yangtze River Monitoring and Scientific Research Centre) at the following hyperlinks:

<https://res.cenews.com.cn/h5/news.html?id=140737> (China Environment News, 29 Dec 2020)
